Rebuild Iraq ***Rebuild America***

Bring the Troops Home

Dear President Elect:

Americans are looking to you for a fresh start, and an end to the Iraq war as you rebuild our relationships with the global community. A smart investment in a comprehensive strategy can make America safer, and contribute to political stability in Iraq and the region. We call on you to pursue a strategy that includes:

- Withdrawing all U.S. troops and private contractors within one year
- Creating a "diplomatic surge" that engages Iraq and its neighbors (including Iran and Syria) and the international community
- Leading donor efforts for Iraqi-controlled reconstruction and humanitarian aid, including Iraq's almost 5 million displaced people
- Assisting in the establishment of international peacekeeping and stabilization forces if requested by the Iraqi people.
