## Support our Troops – Bring Our War Dollars Home

---

We, the undersigned, call upon Gov. Pat McCrory and the NC General Assembly to repeal legislation that results in a reduction of services and benefits for North Carolina's 766,000 veterans.

Led by Speaker of the House Thom Tillis, a regressive legislature has cut unemployment benefits and eliminated the Earned Income Tax Credit. The Legislature voted against benefits for returned and disabled veterans, and opposed funding for veterans' health care.

Incidences of Traumatic Brain Injury, PTSD, homelessness, and suicide are increasing annually. More than 500 NC veterans died by suicide from 2009-2011. The Veterans Administration remains in crisis. Cuts in veterans' entitlements undermine their re-integration into civilian life.

We urge the Legislature of "the most military friendly state" to move forward, together, with our veterans, by revising public policy to support our veterans and their families.
