

# Expand Veterans Courts in NC

We, the undersigned North Carolina citizens, urge our policy leaders to provide additional funding to expand Veteran Services to include more Veteran Courts to better meet the needs of those who served but now find themselves in dire circumstances. Expanding the number of Veteran Courts within North Carolina will offer compassionate outcomes to our veterans who have suffered mental health problems as a consequence of war. This will also help reduce criminal recidivism, veteran drug use, and provide necessary counseling to help veterans reintegrate into mainstream society. We urge the Governor to increase the number of grants given so more counties can open Veteran Courts.
