

# Don't Privatize Veterans' Health Care

To: U.S. Senators Richard Burr and Thom Tillis

*Whereas* care of our Veterans is a national obligation and not a responsibility that should be turned into a for-profit venture,

**We residents of North Carolina** call on Senators Burr and Tillis to oppose and rescind S2372: The VA Mission Act and oppose privatization of VA health care. We ask you to support and vote to further fund and fully staff the Department of Veteran Affairs at levels that provide the care our veterans deserve.
