

# Fully Support NC's Homeless Veterans

On any given night in 2020, over 37,000 veterans were homeless and 15,000 remained unsheltered in the US. Disabled veterans account for about 50% of people who are homeless. It is a sad fact that even NC, which calls itself a “military-friendly” state, is twelfth nationally for the highest rate of homelessness among veterans.

**Therefore,** We the undersigned urge Governor Cooper and the NC General Assembly to increase housing, health care, and employment resources to help all our homeless veterans.
